

ImmunoCode™ 2.0

Natural Immunity Support

ADVANCED TRANSFER FACTOR FORMULA
FOR A STRESSFUL WORLD

Supercharge your immune response! ImmunoCode™ 2.0 is formulated to create a stronger foundation in immune health. Each serving provides a potent dose of bioavailable, natural, active ingredients that work synergistically to strengthen the immune system.

ImmunoCode™ 2.0 naturally educates your immune system so it will be equipped to effectively recognize and respond to a myriad of health threats, such as invading infections and viruses. Thanks to technological advancements, the Transfer Factor Blend is designed to pass on advantageous immune system “knowledge” to your body in much the same way as a mother imparts natural immunity to her baby through her colostrum (first milk).

The revolutionary Oligosaccharides in ImmunoCode™ 2.0 function to improve your gut health. Only in recent decades have scientists discovered the critical link between the gut microbiome and the immune system. The beneficial bacteria in our gut help keep us healthy and balance our immune response against disease- carrying pathogens.

To further shield and fortify your immune health, ImmunoCode™ 2.0 also provides powerful anti-stress antioxidant support to help us cope with the stress of modern life. In addition, the proprietary super- mushroom mix and powerful Beta Glucans prime your natural defenses to help keep your immune system awake and alert. Each ingredient was selected for its unique beneficial profile and functions to help the body feel strong and heal quickly.

Supercharge Your Immune Response!

BENEFITS MAY INCLUDE:

- Strengthen Immune Response
- Boost and Balance Immune System
- Increase Stress Resilience
- Support Gut Microbiome Health
- Help Protect Body Against Illness
